MICHELLE PHAM

Sunnyvale, CA | (408) 940-1506 | Mpham@wgu.edu | linkedin.com/in/michelle-pham6 | github.com/mpham-87

EDUCATION

Western Governors University, Bachelor of Science in Computer Science **December 2026**

Relevant Coursework: Data Structures & Algorithms I/II, Software Engineering, Operating Systems, Back-End Programming, Advanced Java, Computer Architecture, Data Management, Artificial Intelligence & Machine Learning

University of Cincinnati, Bachelor of Science in Nursing **April 2023**

TECHNICAL SKILLS

Languages: Python, Java, C++, JavaScript, HTML, CSS, SQL
Frameworks/Libraries: React, Spring Boot, Streamlit, pandas, scikit-learn
Tools/Technologies: Git, GitHub, GitLab, MySQL, Linux, REST APIs, JPA, Gradle, Docker

PROJECTS

Health Risk Predictor | Python, pandas, scikit-learn, Streamlit, Random Forest GitHub

- Built a Python/scikit-learn regression pipeline to predict health risk scores from weather and air-quality data, including missing-value imputation and an 80/20 train-test split.
- Trained a Random Forest regressor with 0.0854 MAE and 0.9715 R^2 on the test set; examined feature importance to interpret model predictions.
- Created a Streamlit demo that loads the saved model and displays predictions from user-entered environmental values.

Student Success Predictor | Python, pandas, scikit-learn, Streamlit, GridSearchCV GitHub

- Built a Python classification model to flag students who may need academic support using attendance, study habits, prior failures, and support-program data.
- Combined one-hot encoding, missing-value handling, and a Random Forest classifier in a scikit-learn pipeline; tuned parameters with GridSearchCV and cross-validation.
- Measured classification performance using accuracy, precision, recall, F1, and a confusion matrix; built a Streamlit interface to test predictions.

Delivery Route Optimizer | Python, Hash Tables, Greedy Routing GitHub

- Built a Python delivery simulation for 40 packages transported by 3 trucks with 2 drivers, accounting for delivery windows, truck capacity, and address updates.
- Implemented a custom hash table with separate chaining to store package records and support average O(1) lookup by package ID.
- Developed a nearest-neighbor routing approach and time-based package tracking to calculate truck mileage and report delivery status at requested times.

EXPERIENCE

Choices Case Management Inc. **San Jose, CA**

Workers' Compensation Field Nurse Case Manager *Feb 2024 – Present*

- Managed 25+ active cases, coordinating treatment schedules and follow-ups to improve appointment attendance and patient understanding of care plans.
- Resolved missing documentation and clarified authorization requirements to move referrals into scheduled treatment, contributing to a 20% increase in treatment completion.
- Contributed to more than $100K in cost savings by reducing treatment delays and improving coordination of approved services.
- Tracked treatment milestones, authorizations, and outstanding actions using EMR records, Excel, Outlook, Teams, and monthly insurer reports.
- Coordinated with physicians, insurers, employers, and vendors to resolve scheduling and approval issues and keep cases moving.

LEADERSHIP EXPERIENCE

Thieu Nhi Thanh The (Vietnamese Eucharistic Youth Group) **Cincinnati, OH**

President | 15-member youth group *2022 – 2023*

- Led 15 youth-group members in organizing Vietnamese Eucharistic programs, volunteer activities, fundraising, and events.

Delta Phi Lambda **Cincinnati, OH**

President | 28-member chapter *2019 – 2020*

- Led a 28-member chapter, managing recruitment, fundraising, budgets, committees, and event planning.

CERTIFICATIONS

AXELOS ITIL Foundation — Sep 2026 | Linux Foundations — Aug 2026
